QUESTION: 1

When delivering from a sales order of the type 'Blanket order,' which of the following actions are mandatory?

- A. Create one or several release orders and deliver and invoice the number of items which have been stated in the contract with the customer.
- B. Update the sales order with a quotation and an order confirmation before updating with a picking list or a packing slip.
- C. State a valid blanket order number in the field 'Blanket order'.
- D. Make sure that the relevant parameter has been selected in advance in the sales order module, allowing this kind of sales order to be created.

Answer: A

QUESTION: 2

Which of the following statements regarding supplementary items are correct?

- A. Supplementary items will automatically be transferred to the order line when calculating discounts.
- B. Supplementary items can be based on quantities in an order
- C. They can only be set up on the individual item.
- D. They can set them up to be free of charge.

Answer: B, D

QUESTION: 3

When editing a BOM with multiple levels, what benefit does the BOM Designer have over the BOM Line form?

- A. You can select the Edit button to display a sub-BOMs lines in BOM Designer.
- B. You can print the BOM definition from BOM Designer by selecting the BOM and clicking the Print button and not in the BOM Line form.
- C. You can view the BOM versions of a sub-BOM in BOM Designer and not in the BOM Line form.
- D. The BOM Designer displays the BOM in graphical tree format so that you can see all sub-BOMs and their components.

Answer: D

QUESTION: 4

A BOM is comprised of a sub-BOM which represents a sub-assembly. In which of the following scenarios would you set a sub-BOM line type to Vendor?

- A. The sub-assembly is comprised of several items that are supplied by the same supply company.

MB6-204 Demo – 100% Money Back Guaranteed!!!

MB6-204 Demo – Pass-Guaranteed.com

- B. The sub-assembly is produced in your plant from the items in the sub-BOM.
- C. The sub-assembly is produced by a subcontractor and your warehouse maintains an inventory of these sub-assemblies.
- D. The sub-assembly is produced by a subcontractor and your warehouse provides the items in the sub-BOM to the subcontractor.

Answer: D

QUESTION: 5

Which of the following basic principles are required when making considerations in setting up inventory dimensions?

- A. Determine if dimensions are relevant for the business.
- B. Setup as many dimension as possible to define and describe the item.
- C. Consider the relevance of each dimension for the various groups of items prior to setting up dimension groups.
- D. Only setup the number of dimensions that will actually be used for each item.

Answer: A, C, D

QUESTION: 6

An customer is in the process of migrating from one version of an item to a new version. Now they have both items in stock, but in the future they will only sell the new one.

How can the old item be set up in the item master to ensure that it is no longer purchased, and that the new item will be used when the old item is sold out?

- A. On the set up button define the substitute items that will be used when purchasing the item.
- B. On the set up button define the substitute items that will be used when selling the item.
- C. On the quantity tab select the top field for purchase orders.
- D. On the other tab set up an alternative item, which is used when nothing in inventory.

Answer: C, D

QUESTION: 7

In the inventory model groups there is a cost price parameter include physical value.

Which of the following is true about this parameter?

- A. When this parameter is enabled for a group of items, then recalculation of the inventory will not change cost prices on these items. This will only happen when closing inventory.
- B. Only the physically posted items will be used for cost price calculation when issuing items.
